

THE LOVE I NEED TO KNOW

By Terry Cox Jun 29, 1988

Intro Bridge **C-D, C-D**

D **C**
I see the moon through the fog tonight

G **D**
And it brings forth lovesick fantasies

C
Of the way we'll walk hand in hand

G **D**
And plan out how our life will be

But I don't know where to look and I don't know her name

But my mind can conjure up her face

And like a lyric from a whispered song

I smell her hair and feel her lace

C **D**
And we'll buy a little book and we'll write down all our dreams

C **D**
And I'll make a special box where we'll keep our treasured things

C
Will the fog bring me rain or will it bring me snow

G **D**
Will it bring me a girl and the love I need to know

C
Will it make me so happy the way I long to be

G **D**
Or will it leave me searching from now to eternity

Chorus

Play key D (100)
